**Total word count should not exceed 8000 words of the paper**

---

### **Abstract**

The abstract should provide a concise summary of the research, including the objectives, methods, key findings, and conclusions. It should be between 150-250 words.

---

### **Keywords:**

Keyword 1, Keyword 2, Keyword 3, Keyword 4, Keyword 5

---

### **Abbreviations**

Please include any abbreviations which are mentioned in the article.

---

### **Introduction**

The introduction should present the background of the study, the research question, and the objectives. It should also briefly review relevant literature and explain the significance of the study.

#### *Data Analysis*

Describe the statistical or analytical techniques used to process the data.

---

### **Results**

Present the findings of the study, using tables, figures, and text. Ensure that the results are organized in a logical sequence and that all data are clearly presented.

*Insert Figures or tables here with its legend here*

Variable	Group A	Group B	p-value
Data 1	Value	Value	Value
Data 2	Value	Value	Value

**Table 1: Description of Data.**

Insert Figure 1 or more here

**Figure 1: Example Graph of Results**

---

### **Discussion**

**Interpret the** findings of the study, comparing them to previous research, explaining their implications, and noting any limitations. Discuss how the results contribute to the existing body of knowledge and suggest potential directions for future research.

---

### **Conclusion**

Summarize the key findings and their significance. Provide a brief statement on the potential impact of the study and any recommendations for further research or practice.

---

### **Acknowledgments**

Thank any individuals or organizations that contributed to the study but do not meet the criteria for authorship. Include funding sources, if applicable.

---

### **Conflict of Interest Statement**

Declare any conflicts of interest that may have influenced the research, authorship, or publication of the article.

---

### **Informed Consent Statement**

Informed consent was obtained from the participant involved in this study.

**Authors' Contributions**

All authors have contributed equally to this work and have reviewed and approved the final manuscript for publication.

**Financial Disclosure**

No financial support was received for the writing, editing, approval, or publication of this manuscript.

**Consent for Publication**

Informed consent for publication was obtained from the patient involved in this case report, as documented in the manuscript.

**Ethical Statement**

This project was exempt from IRB review as it did not qualify as human subject research under federal regulations.
